

## RoHS Declaration of Conformity

Directive 2011/65/EU of the European Parliament and of the Council of 8 June 2011 (known RoHS2) and the amendment Directive (EU) 2015/863 restrict the use of certain hazardous substances listed below in electrical and electronic equipment.

For these purposes, the maximum concentration values of the restricted substance by weight in homogeneous materials are:

Substance	Maximum Limit (ppm)
Lead (Pb)	1000
Cadmium (Cd)	100
Mercury (Hg)	1000
Hexavalent Chromium (Cr <sup>+6</sup> )	1000
Polybrominated biphenyls (PBB)	1000
Polybrominated diphenyl ethers (PBDE)	1000
Bis(2-ethylhexyl) phthalate (DEHP)	1000
Butyl benzyl phthalate (BBP)	1000
Dibutyl phthalate (DBP)	1000
Diisobutyl phthalate (DIBP)	1000

*The maximum limit does not apply to applications for which exemptions have been granted to the RoHS Directive*

Based on the information provided by our suppliers, and to the best of our knowledge, we designate that the products listed below are RoHS compliant as of the date listed. For these purposes, RoHS compliance means that our suppliers have confirmed the compliance status of the relevant products to us and we maintain relevant documents to support this.

Confirmation of compliance status by our suppliers is either because the products do not contain any of the restricted substances referred to in Article 4(1) of the RoHS Directive at concentrations in excess of those permitted under the RoHS Directive or because removal of the restricted substances is not technically possible and their existence in the products at levels in excess of these concentrations is allowed as one of the particular applications listed in the Annex to the RoHS Directive.

To the best of our knowledge, none of our suppliers of the products listed below use these banned substances to manufacture these products. Our statements in this document regarding RoHS compliance do not extend to, or apply to any product subjected to unintended contamination, misuse, neglect, accident, or improper installation.
